Figure 1: Schematic representation of the experimental design. The diagram shows a sequence of events: a subject is presented with a stimulus (a word), then a response is given (a word), and finally a feedback is provided (a word). The sequence is repeated for multiple trials. The diagram is divided into three main sections: 'Stimulus', 'Response', and 'Feedback'. Each section contains a box representing the stimulus, response, or feedback, and a box representing the subject's input/output. The sequence is shown for a single trial and then repeated for multiple trials.
